**sappi**  
**triple green**  
sugar cane fibre, chlorine-free, sustainable afforestation.

Sappi Triple Green is a paper grade manufactured according to three environmental pillars: A minimum of 60% of the pulp of this paper is sugar cane fibre; the bleaching process is chlorine-free; and the remaining pulp comprises of wood fibre obtained from sustainable and internationally-certified afforestation using independently-audited chains of custody. Triple Green is fully recyclable.

OCILLY CAPE TOWN 46642

Das Auto.

**Set yourself apart.**

Experience a new dimension in the Volkswagen CC: you'll be amazed at how much space you can enjoy in this stylish Coupé. The rear seat affords plenty of legroom, and the folding centre armrest ensures additional comfort. The generous dimensions are complemented by elegant design features such as frameless doors that give the

appearance of glass and metal flowing into one another. In addition to this, a range of seat upholstery is available for you to add your individual taste to the interior of the Volkswagen CC.

**An experience that is distinctly different.**

A sporty exterior and luxurious interior are designed to envelope both driver and passengers in unsurpassed luxury. 12-way adjustable electric front seats with memory are standard on the 3.6 V6 for added comfort, while Climatronic dual-zone automatic air conditioning

comes standard on all models. The upmarket ambience is further supported by eye-catching lines and high-grade materials – ‘Brushed Aluminium’, ‘Burr Walnut’ and leather finish are all standard.

**Be moved into a class of your own.**

The Volkswagen CC has an elegance that will quicken your heartbeat with its breathtaking design and sporty appeal. The energetic lines coupled with athletic performance are evident in both the TSI and TDI models. Relax and enjoy a magnificent driving experience in the comfort and luxury of the beautiful Volkswagen CC.

Perfectly proportioned; beautifully finished: the tail-lights add the finishing touch to the elegant silhouette of the Volkswagen CC, while the athletic Coupé lines of the tail does not sacrifice any of the space and comfort. The luggage compartment is an impressive 532 litres - and is just one of the virtues of this classically beautiful car.

**Experience a new level of safety  
through design ingenuity.**

Cutting edge safety features provide the ultimate peace of mind. The innovative light construction methods applied to the Volkswagen CC offer optimum protection. In the event of a collision, the body absorbs impact energy, therefore preventing deformation of the passenger cell. In addition, protective zones at the front of the vehicle reduce the injury

risk for pedestrians. The active safety concept includes ABS (Anti-lock Brake System) with Brake Assist, ASR (Anti-Spin Regulator), EDTC (Engine Drag Torque Control) Traction Control, ESP (Electronic Stability Programme), EBD (Electronic Brake-force Distribution) and Hill Hold control. All these measures enhance your safety – and that of your family.

## Superior Safety.

Your Volkswagen CC offers you effective protection on all sides, responding with the right reaction at the right time. The passive safety concept includes a passenger cell with high torsional rigidity. This means that the vehicle body can absorb a large part of the impact energy in an accident. In addition, deformation zones at the front and rear of the vehicle reduce the risk of injury. For the safety of very young passengers, top tether ISOFIX securing brackets are fitted standard behind the head restraints to enable child seats to be locked in securely. An acoustic and visual warning system acts as a reminder for the driver and front passenger if they have not fastened their seatbelts. The active safety features include carefully matched running gear with a suspension strut front axle and 4-link rear axle for comfortable and safe travel on both even and uneven surfaces.

Optimal illumination of the road

incorporates static cornering lights that illuminate the road when the vehicle turns at low speed. As an option, there are Bi-Xenon headlights with dynamic cornering lights and daytime driving lights. At a speed of 15km/h small motors move the Bi-Xenon headlights exactly in line with steering movement. This allows for the driver to avoid possible dangers at an early stage. This effective safety concept reduces the risk of accidents and provides even more driving enjoyment.

6 Airbags. The standard airbag system consists of driver and front passenger airbags, curtain airbags at front and rear, and side airbags at the front. In conjunction with the seatbelts, airbags reduce the risk of serious head and thorax injuries. As soon as the crash sensors register on impact, the airbags are filled by a gas generator within 30 to 40 milliseconds. When activated, the airbags cushion the head and upper part of the body and distribute the force of the impact over as large an area as possible. The reduction in forward movement in the neck region also significantly lowers the risk of injury.

## Intelligent Beauty.

Optional 'Rear Assist' reversing camera, a driver assistance system that has a swivelling camera in the tailgate of the vehicle. The camera image can be seen on the display of the radio system or Satellite Navigation System, allowing for effortless parking.

Bluetooth®, now optional in the Volkswagen CC, lets you talk hands-free while driving. Connect automatically between your mobile phone and the Volkswagen Bluetooth® system through the multi-function steering-wheel, optional RNS 510 touch screen or via the Bluetooth® button, located on the steering-wheel. Once the system and phone are paired, you're ready to go – the phone can be set as a trusted device with no need to configure each time you get behind the wheel.

Self-sealing mobility tyres. A viscous polymer layer is applied to the inner surface of the tyre. Foreign bodies, with a diameter of up to 5mm penetrating the tyres, can be enclosed by this special coating that dramatically reduces the chance of experiencing a flat tyre.

'Park Assist' the parking aid that enables stress-free parallel parking – fitted standard. At a speed of up to 30km/h, ultra sound sensors compare the available parking spaces with the length of the vehicle, informing you when a suitable space is found. 'Park Assist' will then take over the steering for you at your request.

Electronic Stability Programme. This advanced feature helps to stabilise the vehicle during an emergency manoeuvre. It reduces the chance of skidding by applying the brakes independently to the individual wheels and reducing the throttle.

## Standard equipment.

The 2-eye instrument cluster. The ergonomically designed instrument cluster has a sporty signature and boasts white lighting, with the needles soaring the moment the engine is started. The integral multifunction 'plus' onboard computer display supplies you with important information on journey length, journey distance and fuel consumption.

Tail-lights. The unique design and LED appearance of the tail-lights blends elegantly with the silhouette of the vehicle, creating an attractive contrast between bold lines and graceful finishing.

Rear-view mirror. This dims automatically when the headlights of the vehicle behind shine on the mirror. An integral rain sensor activates the windscreen wipers automatically in poor weather and regulates the intermittent wipe function according to the intensity of rainfall.

Rear seat backrest. The practical through-loading facility in the rear seat folding backrest, split 60/40, enables you to stow anything with ease. 5-Seater: now available as an option.

Indicators in the front bumper. These complement the lines of the bumper and underline the impressive Coupé design.

Automatic driving light control with 'leaving home' function and manual 'coming home' function. Lights on the door mirrors only switch off after you have left your vehicle. When using the radio remote control to unlock the vehicle, the lights are switched on even before you open the door of your Volkswagen CC. The area around the vehicle is therefore always well-lit when you enter or exit your vehicle.

Sports suspension. This brings the power of the engine safely onto the road and assures optimal road holding and a sporty feel. The standard 17" 'Spa' alloy wheels on the 2.0 TDI and 18" 'Interlagos' wheels on the TSI both feature mobility tyres with a protective inner coating.

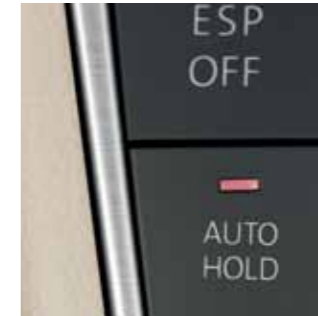

Door mirrors. Integral indicators with LED technology are integrated in the door mirrors as directional indicators. They can be adjusted electronically and heated separately.

Electronic 'Press and Drive' ignition system. The remote control key is simply inserted and brief pressure stops and starts the engine. The key does not have to be turned.

Leather-covered multi-function steering-wheel with a classic 3-spoke design, chrome trim and height adjustment. This die-cast magnesium steering-wheel can, through deformation, absorb energy in a collision and therefore reduce the risk of injury.

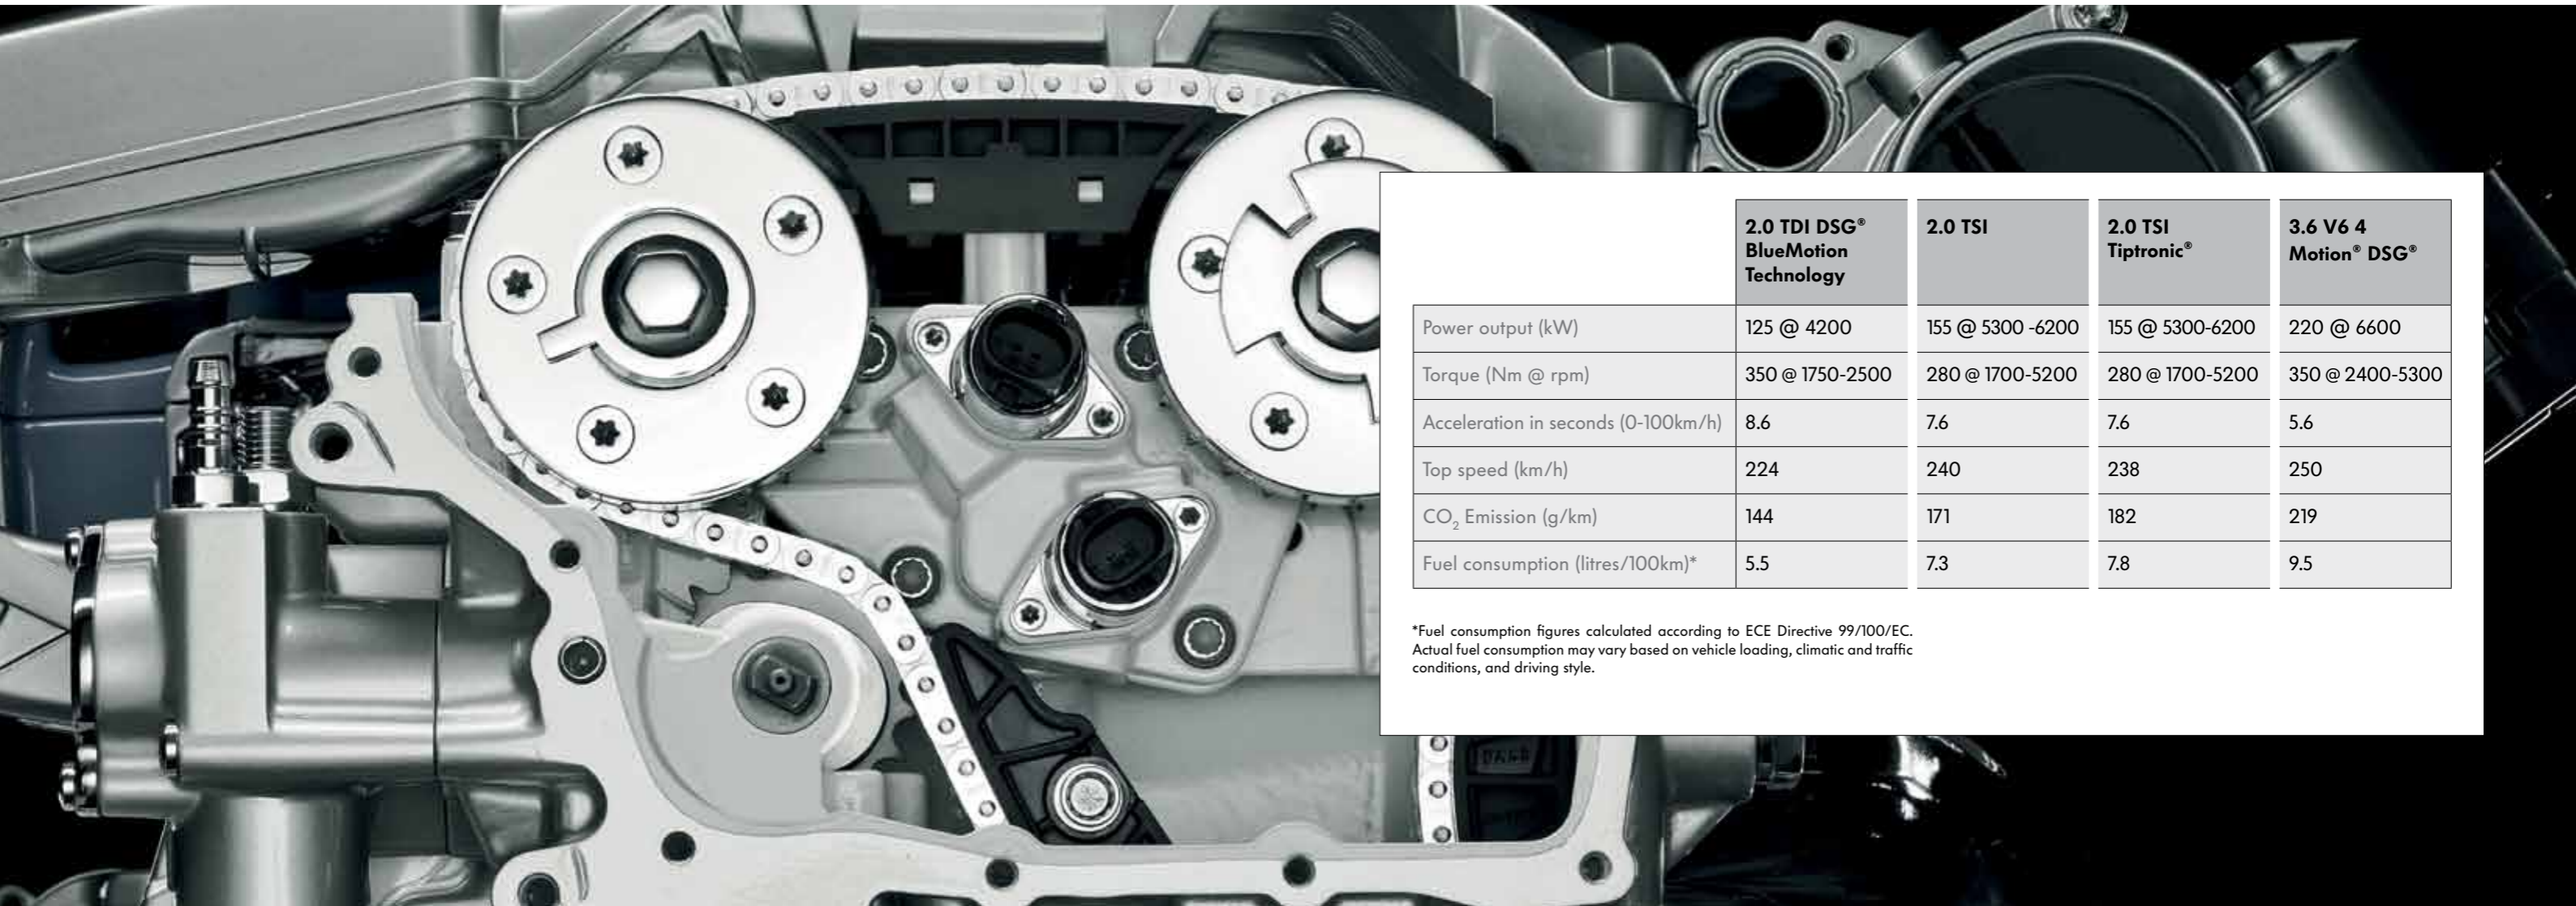

Auto-hold function. To prevent the vehicle rolling when it is stationary, the auto-hold function retains brake pressure. When accelerating, the brake is released automatically.

12V sockets. These are in the luggage compartment and at the rear of the centre console for convenient charging of your mobile phone or laptop.

## Advanced Engines.

	2.0 TDI DSG® BlueMotion Technology	2.0 TSI	2.0 TSI Tiptronic®	3.6 V6 4 Motion® DSG®
Power output (kW)	125 @ 4200	155 @ 5300-6200	155 @ 5300-6200	220 @ 6600
Torque (Nm @ rpm)	350 @ 1750-2500	280 @ 1700-5200	280 @ 1700-5200	350 @ 2400-5300
Acceleration in seconds (0-100km/h)	8.6	7.6	7.6	5.6
Top speed (km/h)	224	240	238	250
CO <sub>2</sub> Emission (g/km)	144	171	182	219
Fuel consumption (litres/100km)*	5.5	7.3	7.8	9.5

\*Fuel consumption figures calculated according to ECE Directive 99/100/EC. Actual fuel consumption may vary based on vehicle loading, climatic and traffic conditions, and driving style.

The distinctive design and innovative nature of the Volkswagen CC is carried through to its powerful engines. Award-winning TSI technology combines direct petrol injection with turbo charging so that fuel is combusted significantly more effectively than with conventional naturally

aspirated engines. The engines are compact which means less weight, less friction, more performance. The 125kW TDI with BlueMotion Technology has a maximum torque of 350Nm yet with impressively low consumption of only 5.5 litres per 100km. The smooth 155kW TSI engine has

a maximum torque of 280Nm with consumption of only 7.3 litres per 100km. The most powerful engine in the range is the roaring 220kW 6-cylinder which, coupled with 4Motion® permanent all-wheel drive and DSG® dual clutch automatic gearbox, enables fast gear changing plus more efficiency and

driving comfort. Common rail technology ensures the diesel engine has both exemplary consumption and outstanding performance. In addition, pollutant emission has been reduced on the TDI to meet the stringent Euro 5 exhaust emission standard.

## BlueMotion Technology: For a beautiful future.

The Volkswagen CC with BlueMotion Technology isn't just elegantly and beautifully designed – it's also environmentally conscious – thanks to the innovative combination of BlueMotion Technologies.

Its highly efficient 2.0 TDI (Turbocharged Direct Injection) DSG (Direct-Shift Gearbox) engine has been fitted with a Diesel Particulate Filter to trap the finest carbon particles, which means that its emissions are low, while still delivering 125kW of power.

Stop-Start technology switches off the engine when the vehicle is stopped and seamlessly re-starts it when the brake pedal is released, saving you fuel and reducing the impact of your vehicle on the environment. And lastly, Energy Recuperation uses less energy to charge the battery while accelerating, and charges the battery during decelerating – once again saving fuel and cutting down on emissions.

All of these innovations enable the Volkswagen CC with BlueMotion Technology to achieve an astonishingly low fuel consumption of just 5.5 l/100km – helping contribute to a beautiful future.

**Think Blue.**

# After Sales Customer Service.

With 105 Volkswagen Dealerships in South Africa, Namibia and Botswana, you can be assured that, no matter where you are, top quality parts and service will be available, helping you get back on the road sooner. You can expect nothing less from one of the world's leading car brands.

The Volkswagen CC is available at all Volkswagen Dealerships. Visit one and test drive this remarkable example of German excellence today. You can find a comprehensive list of Volkswagen Dealerships on our website: [vw.co.za/dealers](http://vw.co.za/dealers)

**Volkswagen Service®**

**Genuine Parts & Accessories®**

**Volkswagen Financial Services.**  
**Helping you over every bump in the road.**

Volkswagen Financial Services are committed to helping you through every aspect of your vehicle's purchase, because we know the importance of efficiency, service and convenience when buying and insuring a car.

Our financial services are backed by the Volkswagen brand and affiliated with only the best financial service providers (WesBank and Hollard), ensuring that you always get honest, expert advice and uncompromising service and support.

Our team of financial advisers are committed to your satisfaction and are willing to help you explore all your options until you find the finance deal that best suits your needs.

## Das Auto. *The Car.*

Only when a car defines an era. Only when a car becomes a way of life. Only when a car gives its name to an entire generation. Only when a car possesses both size and stature. Only when a car provides a home for the whole family. Only when a car

invites everyone to share its innovations. Only when a car creates technologies that break new ground. Only when a car delivers a miracle of performance. Only when today's car is already anticipating tomorrow. Only then can it be called *The Car* (Das Auto).

The Volkswagen CC is the ultimate expression of Das Auto – redefining the sedan and offering customers world-class quality, safety, technology and performance. That's why it's *The Car* for people going places. With the Volkswagen CC, success comes standard.
