

NEW JETTA

Das Auto.

For the driver in you.

When you get behind the wheel of the New Jetta, you'll immediately feel your inner driver stirring to life. Astonishing! Arresting! The New Jetta re-invents the mid-sized sedan and is set to cause a sensation in its category. Designed to liberate the driver in you, the New Jetta is the ultimate driver's car. The New Jetta represents a design revolution, sportier and more assertive than ever before. With more rear legroom and the largest boot in its class, not to mention its staggering array of sophisticated features, the New Jetta is ultra-

concentrated Das Auto. Comfort, performance, safety and design blend together to turn every journey into a reward. The sixth generation Jetta is larger than its predecessor and the premium quality of the material inside the cabin ensure supreme comfort for the driver and passengers. Let the New Jetta reignite your passion for driving and make every trip an experience. Sweeping corners, city streets, country roads and hairpin bends all come alive when you're in a New Jetta. The New Jetta longs for the open road and a

liberated driver who appreciates an exceptional driving experience and the freedom of the open road.

Design revolution.

A compelling combination of cutting edge design lines, elegance and sportiness give the dynamic New Jetta its distinctive appearance. With its sleek contours, sculpted bodylines and aesthetic detail, the all-new, revolutionary design is both contemporary and timeless, exuding quality and refinement with a modern edge. The New Jetta was awarded the "Good Design Award for 2010", in the category of Transportation. This award is bestowed by The Chicago Athenaeum: Museum of Architecture and Design, which manages the world's most prestigious global

awards for new product design and graphics. Reinvented and reinterpreted to reinvigorate and re-energise the driver, the exterior of the New Jetta has been completely redesigned and the result is breathtaking. Simply put, it's automotive charisma at its finest. Art in motion that will get you in touch with your inner driver.

The New Jetta's heart will get yours racing.

The height and reach adjustable steering-wheel allows the position of the steering column to be adapted to individual requirements.

Spirited engines, dynamic handling and luxurious comfort will re-ignite your love of the open road and get your blood pumping at the slightest step on the accelerator. At the heart of the New Jetta is a range of powerful and efficient new generation engines, the sophisticated TDI as well as Volkswagen's award-winning TSI engines. The dynamic 7-speed DSG® gearbox, combines super smooth, seamless and extremely fast gear changes with thrifty fuel economy. The TDI engines deliver exceptional fuel economy and are also supremely quiet.

The latest common rail diesel technology provides impressive torque throughout the rev range with the added benefit of low fuel consumption. The TDI engine range includes, the 1.6 77kW TDI manual, 1.6 77kW TDI DSG® and the high performance 2.0 103kW TDI manual. Whichever model you choose, the New Jetta delivers an exhilarating drive drawing on the best attributes of German under-the-skin engineering. Let the New Jetta's power and performance set you free on the open road.

The 6-speed manual gearbox transmits power with short, accurate shifts.

The advanced 7-speed DSG® gearbox combines super quick gear changes with smooth performance and reduced fuel consumption.

White instrument lighting and red needles improve the visual appearance, while the multi-function computer provides important information as you travel.

Control is at your fingertips with the leather multi-function steering-wheel fitted with ergonomically designed switches.

Model Range	1.2 TSI Trendline	1.4 TSI Trendline	1.4 TSI Comfortline	1.6 TDI Comfortline	1.6 TDI Comfortline DSG®	1.4 TSI Highline	2.0 TDI Highline
Power output (kW @ r/min)	77 @ 5,000	90 @ 5,000	90 @ 5,000	77 @ 4,400	77 @ 4,400	118 @ 5,800	103 @ 4,200

Fuel consumption (l/ 100 km) (Combined)	5,7	6,2	6,2	4,5	4,7	6,3	4,8
CO ₂ Emissions (g/km)	134	144	144	119	123	145	126

Think award-winning TSI engines.

The award-winning TSI engine range benefits from combining innovative direct injection technology and turbocharging. This combination works to produce power far more effectively than normally aspirated engines. It's a level of performance that will surprise you every time you take to the wheel. Precision engineered, the new generation TSI engine range offers outstanding driving enjoyment with the benefit of reduced fuel consumption and CO₂ emissions, which results in less

impact on the environment. It's no wonder Volkswagen's multi-award-winning TSI engines have won respect all round as they break new ground in the automotive world and set new standards for others to follow. All New Jetta TSI engines are fitted with a 6-speed manual gearbox and whether it's the entry-level 1.2 77kW TSI or the 1.4 90kW TSI, all the way up to the supercharged, flagship 1.4 118kW TSI, you'll enjoy a spirited and refined performance that's also environmentally friendly.

Release your inner driver with a choice of three innovative TSI engines.

Innovative TSI technology produces excellent torque and power output whilst reducing fuel consumption and CO₂ emissions. You could say it represents the best of all worlds.

Redesigned. Reinvented.
Revolutionary ... Remarkable!

Step into your comfort zone.

Choose from a wide range of trim levels, all made from the highest quality materials.

Considering how much time we spend on the road, it makes sense to ensure we travel in maximum comfort. And this is where the New Jetta truly excels. Intuitively designed and intelligently crafted to provide a truly enjoyable ride. The New Jetta contains a wealth of standard features, ergonomically situated for an engaging driving experience. These comfort features include a multi-function leather steering-wheel, climatic air conditioning, front centre armrest, radio RCD-310 with 8 speakers and electric and heated

mirrors. As the longest and most spacious Jetta ever built, the New Jetta sports more rear leg room and ample cabin space than the previous generation Jetta as well as the largest boot space in its class. Comfortable and ergonomically designed seating ensures maximised comfort and safety, while climatic air conditioning keeps you as cool or snug as you choose. The top quality premium interior ignites the senses and re-energises the spirit. So sit back, relax and let your inner driver escape to a world of outstanding luxury and style.

The New Jetta features the finest finishing touches.

Feel immersed in luxury and comfort as you drive.

Spacious legroom and comfortable seating for rear passengers.

Enjoy a radio/CD with MP3 Player and a high quality speaker system.

Safety inspired by intuitive engineering.

The sophisticated new generation curtain airbag system ensures safety of the highest order.

Only when you feel safe can you drive truly confidently. Being awarded a 5-star Euro NCAP Safety Rating is proof that safety is a cornerstone of the New Jetta - and why a whole range of intuitively engineered new generation safety features are fitted as standard across the range. The New Jetta comes standard with six new generation airbags. Passive safety features include a curtain airbag system for front and rear passengers, front seat side impact airbags, and standard driver and front passenger airbags with passenger's airbag

deactivation switch. This comprehensive airbag system has a special sensor system that detects crash intensity and deploys the airbags faster than ever before. The whiplash optimised front head restraints and three-point seat belts ensure an even safer drive. The front seat belts are fitted with tensioners and are height-adjustable for added protection and comfort, with a warning light and buzzer to notify you if your seat belt is unfastened. The Light and Sight Package has highly advanced features that further boost safety: the auto dimming interior

The Electronic Stability Programme reacts to critical driving situations in milliseconds by targeting brake and engine management systems, controlling the speed of individual wheels and bringing the vehicle under control.

mirror dims potentially visually impairing light emitted by traffic approaching from the rear, and automatic headlamp activation with separate daytime running lights. It's safety that ensures you have the ultimate peace of mind that you and your loved ones are safe and sound.

The whiplash-optimised head restraints not only ensure additional comfort, but also provide particularly effective support for the head and spine in the event of a collision.

The warning lights on the multi-function computer keep you informed and alert.

The Light and Sight package ensures increased visibility on the road.

Safety that inspires driving confidence.

The road ahead may have its ups and downs, but to ensure that the ups don't get the best of you, the Hill-Hold control function activates on inclines, keeping your vehicle stationary until pressure is applied to the accelerator pedal. The Hill-Hold function then disengages and allows acceleration. No more rolling back on inclines. Effortless control. Additional safety features include an Anti-lock Braking System (ABS) that enables the vehicle to be controlled in an optimal way in any condition and an Electronic Stability Programme

(ESP) with Brake Assist and Electronic Differential Lock (EDL). Electronic Differential Lock makes it easy for you to drive off with the wheels on two differing road surfaces. Built with a level of safety that ensures peace of mind on every journey, the New Jetta makes certain that once you are on the road, you remain there. ESP, standard across the range, recognises the first signs of a critical situation and intervenes in milliseconds by utilising engine management control systems to stabilise the New Jetta. This, in conjunction with

ABS (Anti-lock Braking System) and EDL (Electronic Differential Lock), make for one of the safest and most secure driving experiences. So relax and enjoy the drive, knowing that you and your family are safer than houses.

Technology that breaks boundaries.
And then goes beyond.

The New Jetta is the ultimate realisation of the Das Auto brand philosophy. Das Auto means *The Car*, and is Volkswagen's brand ambition to produce the best car in every vehicle class. TSI technology combines impressive performance with lower fuel consumption and emissions. The optional 2-zone climatronic air conditioning creates superior levels of in-cabin comfort that allows each passenger to define their

own temperature level. Innovative features like separate daytime running lights, *Cruise Control, *Bluetooth cellphone preparation and *Park Distance Control maximise driving pleasure. Nothing has been left unconsidered. From the Rain Sensor to the manual Coming / Leaving Home Lights On Function, the New Jetta is at the forefront of innovation and technological excellence.

*Features optional on certain models.

Quality down to the finest detail. And then some.

Halogen headlights, range adjustable with daytime running lights offer optimum illumination, ensuring your vehicle is more visible during the day and add a stylish touch to the exterior.

True to its German-engineered pedigree, the New Jetta offers an abundance of features and product innovations, all made from the highest quality materials that provide a level of refinement nothing short of exceptional. Modern and meticulous, every inch of the New Jetta reflects uncompromising attention to detail. From the luxurious optional Vienna leather* upholstery, to the 17 inch designer

alloy rims and the multi-award winning TDI and TSI engines. Every detail has been carefully refined and crafted to create a car that exemplifies the new face of Volkswagen's Das Auto brand philosophy to produce the most innovative and fascinating cars in the world. Attention to detail meets style and substance. The New Jetta is the epitome of refined luxury and pure class.

* Leather seat inserts and a combination of high quality, durable materials.

The New Jetta's side mirror features a built-in indicator light, which helps to notify surrounding drivers of your intention to change lanes and to avoid potential collisions.

16" Navarra
(standard on Trendline)

16" Sedona
(standard on Comfortline)

17" Porto
(standard on Highline)

The subtle, stylish and visible exhaust pipe.

New two-piece rear lights with integrated indicators enhance the rear styling, adding contemporary design and giving the New Jetta its distinctive identity.

The electric sliding/tilting glass sunroof provides an extra dimension of light and space, filling the interior with natural light.

Peace of mind included as standard.

Think Blue for a greener future.

With the New Jetta, you can liberate your inner driver and mother nature. The New Jetta uses cutting edge technology to deliver on Volkswagen's determination to protect the environment. Pioneering technologies like Turbo Stratified Injection (TSI), Direct Shift Gearbox (DSG®) and Turbocharged Direct Injection (TDI) are the pillars of Think Blue – Volkswagen's brand vision of creating efficient and sustainable vehicles for all. The engineering dynamics employed in common rail diesel injection technology produces cleaner, more refined and efficient combustion,

for improved performance and fuel consumption. TSI petrol engines blend the best of Volkswagen's TDI diesel and FSI (Fuel Stratified Injection) petrol technology to be more compact, high-powered and fuel efficient. There's no need to choose between performance and economy – the cleaner TSI engines have a smaller impact on the environment, are kinder to your pocket, and, best of all, offer outstanding performance. Thanks to the New Jetta and Think Blue, the future is looking greener than ever.

Think Blue.

Every Volkswagen driver is unique.

When purchasing and insuring a vehicle it makes sense to enlist the help of a trusted partner. Volkswagen Financial Services' team of dedicated advisers will assist with every aspect of the vehicle purchasing and insuring process, making it as quick and easy as possible. Volkswagensure is a comprehensive range of affordable motor insurance

products available to Volkswagen owners. Brought to you by Volkswagen Financial Services, Volkswagensure is underwritten by The Hollard Insurance Company Ltd. All Volkswagen Financial Services products are designed to provide you with a hassle free motoring experience and are conveniently available from any Volkswagen Dealer in

South Africa. With Volkswagen Financial Services, driving home your New Jetta will be easier and faster than you ever imagined.
